CARE AND USE BOUNDARIES

Keep the supplied operating instructions with the actual equipment.

MODEL-SPECIFIC LIMITS

This reference does not establish pet restraint routing, allowable tension, a required number of straps or compatibility with every cot. Use exact equipment instructions and facility procedures. Do not treat these cot restraints as vehicle tie-downs, lifting slings or carry handles.

BEFORE USE AND AFTER CLEANING

Check identification, visible damage, loose or missing parts and the condition of the fitted supports, locks, wheels, straps, closures or plumbing as applicable. Use the actual model's required checks. Quarantine damaged, uncertain or inconsistently operating equipment.

CLEANING AND DISINFECTION

Clean visible soil before disinfection. Confirm material and finish compatibility and follow the approved product label for dilution, full wet contact time, any rinse and drying. This document validates no chemical, sterilization process or laundry cycle.

SERVICE AND LUBRICATION

Only service points, products, quantities and intervals specified by the exact equipment instructions are authorized. Do not improvise repairs, drill the frame, lubricate latches or substitute parts based on appearance. Document findings and authorized disposition.

The source manufacturer/model manual, where appended, retains its original identity and instructions. Resolve any conflict against the exact supplied revision before use.

EXPLORE THE TITAN PET FAMILY

Compare actual models; related links do not establish compatibility.

P400

Published 500 lb rating; 76 x 22 in; maximum loading height 24 in.[1]

View model, configuration and current price

P700 Max

Published 1,000 lb rating; 76 x 24.8 in; maximum loading height 25 in.[1]

View model, configuration and current price

500T High-Loading

Published 600 lb rating; loading height 32 in; separate deck figure 31 in.[1]

View model, configuration and current price

Model numbers are identifiers, not load ratings. Measure the vehicle opening, deck and interior; confirm the required fastening system and exact-model instructions. No blanket SUV, van or accessory-fit claim is established here.

EQUIPMENT & TRAINING RECORDS

Complete for this accessory. Do not record patient-identifying information.

Equipment identity	Enter details
Model / serial or lot / asset ID	
Owner / location / purchase reference	
Compatible equipment / IFU revision	

Training record

Date	Person / trainer	Topic / reference	Signoff

First five annual inspection signoffs

These signoffs supplement pre-use checks and the actual model/facility schedule; they do not establish a validated service interval, certification or replacement life.

Year / date	Inspector / company	Findings / disposition / signature
1 /		
2 /		
3 /		
4 /		
5 /		

CONTINUING CARE & SERVICE LOG

Record inspection, cleaning/disinfection, incident follow-up and disposition. Add sheets when needed.

Model / asset ID: _____ Owner: _____

Include the cleaning product, dilution if applicable, label wet time, equipment state, findings, work reference and authorized disposition. Do not return a damaged component to service after cleaning alone.

Date / activity	Findings / cleaning product / wet time / work	Person / company / disposition

NOTES

Keep model-specific observations and document references here. No patient-identifying information.

TITAN PET MORTUARY
BUILT FOR LIFE'S CRITICAL WORK.

KEEP WITH THE EQUIPMENT

Keep the supplied operating instructions, confirmed accessory-fit information, training records and service history together. A related product is not an included component.

PRODUCT / PET MORTUARY

Model-specific documentation and service:
1-888-792-9315
service@mymortuarycooler.com
www.mymortuarycooler.com/pages/tech-support

Provide the exact model, serial/lot, build revision and clear equipment-label photographs. Do not send patient, client or pet-owner identifying information.
